Herstory 2012 continues the celebration, presenting these no-longer-hidden gems in the jewellery box that is Canada and its herstory. Inspiring stories from all parts of the country, and from all time periods, combined with dozens of photographs and illustrations—portraits, events, cartoons and more—make up the rich women's history from which we have all benefited.

The contents of herstory are researched and written by members of the Saskatoon Women's Calendar Collective (swcc), a dedicated group of women who continue to seek ways to make history more reflective of the lives and achievements of the women who helped create and shape our country.
